

Electrical contractors course (39093QLD)

Install, inspect and test

This course has been designed to review a range of procedures and requirements relating to electrical installations in accordance with Australian standards of electrical installation, inspection and testing. This is a pre requisite course for those who wish to apply to the Electrical Safety Office for an Electrical Contractors Licence to undertake Electrical Contracting work within Queensland.

What are the minimum requirements to complete this course?

Successful completion of two (2) technical modules and one (1) business module.

Technical modules:

- **ECL001 - Carry out electrical installation, inspection and testing**
- **HLTCPR201A - Apply resuscitation techniques**

Business module required:

- **BSBSBM401A - Establish business and legal requirements**

The business module is offered via correspondence. Contact **Laurina Love on 47502 5734** prior to enrolling.

If it has been under five years since you have completed your electrical apprenticeship (and over one year since completion in the field) you will only need to complete the business module.

What entry requirements are there?

Students wishing to complete this course are required to have:

- A current Queensland Mechanics Licence
- A current Resuscitation Certificate

How is this course delivered?

This course is delivered part time, two (2) evenings per week over 14 weeks or in an eight day block.

Part time start date: Monday 15 and Tuesday 16 February 2010, 6.00pm – 9.00pm
(Evening classes held every Monday and Tuesday)

Block start date: Monday 12 April – Wednesday 21 April 2010
